

TATTOO AFTERCARE

- 1 Remove bandage within 2 hours. Wash gently with antibacterial soap & warm water, pat dry with a clean towel.
- 2 Once dry. Apply a light amount of ointment (i.e A&D, Aquaphor or Studio ointment) continue application 3 x daily for 3-4 days only. (Before each application of ointment wash gently with antibacterial soap & warm water, pat dry with a clean towel.)
- 3 After 3-4 days stop using ointment and start using a fragrance free moisturizer, apply 2-3 x daily or as needed.
- 4 Don't bandage tattoo again.
- 5 First 3 weeks do not expose the tattoo to sun, tanning salon, saunas, hot tubs, bathtubs, ocean and pools.
- 6 Do not ever pick or scratch scabs. Relieve itching by slapping irritated area.
- 7 Please stop in and let the artist see the healed tattoo.
